

Terraform - players guide

Welcome to Terraform!

To begin, import the Sound library in processing, then click the play button to enter the game!

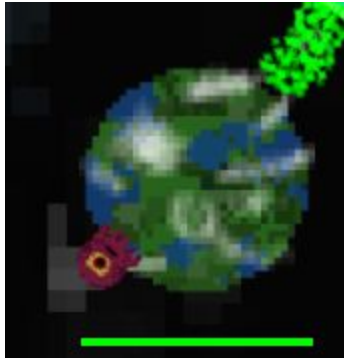

In this game you must traverse the planets, by Clicking and Dragging with your mouse!

The aim of each level is to Terraform every planet, and you can do this by orbiting around that planet for long enough!

There are those who would stop you filling the galaxy with life however..

Deadly aliens who feed on life energy itself will try and consume the life force you have granted your planets, and you may encounter so deadly meteor showers!

To defend yourself, hold shift and hold click to charge your laser until it blasts! You can destroy aliens and asteroids with your laser!

Be smart with your fuel! If you run out you wont make it! Gain fuel by terraforming planets!

Can you make it past the 10 levels with the highest score?

Scoring:

Finish Level = 150

Shoot Meteor = 10

Shoot Alien = 50

Terraform Planet = Planet size (80-150)
